Format

This year, a brand new format aims to bring even more education from the experts.

2 levels of competition:

- **Round 1:** Teams present knowledge-based questions in key topics, with answers centered on the authoritative ESTS Textbook and supplemented by latest updates from global experts
- **Round 2:** Leading surgeons from around the world give personal, real-life tips and tricks on Life as a Thoracic Surgeon... and then quiz the Teams!
Teams gain bonus points for well-reasoned explanations and well-designed questions – but can lose points if they press the buzzer before engaging brains!
In both Rounds, panels of ESTS experts will discuss the questions and answers, sharing their experience through insightful commentary.
